KEY TO CATALOGING

DEFINITIONS

SPECIMEN: An archival printing sample of a finished item, such as a stock certificate, banknote or stamp that is printed usually with "000000" serial numbers and may have "Specimen" overprinted on it and be punch canceled to invalidate it and prevent its use surreptitiously. Specimens were kept for a number of reasons, though usually as samples to give out to prospective customers to give them an idea of the type and quality of the work that the printing company was capable of doing. Usually specimens were printed in limited amounts at the beginning of a printing run to evaluate the quality of the printing work and color combinations at an early stage, rather than have an entire production run rejected due to some minor flaw that was not found until after the printing was completed. A specimen is similar to the final product, printed on the same paper and in the same color.

COLOR TRIAL SPECIMENS: Sometimes specimens would be printed in numerous color combinations not used on the final note for evaluation before a final printing. These are usually extremely rare.

PROOF: An initial pull or impression from a plate or die for evaluation of text, vignette, engraving, and esthetic appeal and to check for any errors or faults. These were usually printed on india paper mounted on card or printed on some form of paper or light card. The amount of proofs printed is usually extremely small and usually number only a handful. Proofs allowed the printing company to evaluate the quality of the item being printed without having to go to the expense of making final plates and finding out small errors that could have been repaired at an earlier stage. Usually, proofs are single impressions of banknotes, stamps, vignettes, etc. Anything that was made into a plate, such as a sheet of 100 stamps could have had proof impressions taken from it. These would be called plate proofs (for multiple images) versus die proofs (usually of a single or small amount of images).

COLOR TRIAL PROOF: A proof printed in a color other than the issued color.

ESSAY SPECIMEN or PROOF: A proposed design that was not used but may be similar or even totally different to a final approved design. An artist, engraver or company may have proposed a number of different designs and color combinations to a client for his approval. If a design is rejected and never used, it could be called an essay.

PRODUCTION MATERIAL: Material found in files used in the production of security printed documents, banknotes, stamps and such. It may include correspondence, photographs, artwork, and signature samples, samples of other printed items that are marked up with corrections as well as proofs, specimens, essays, models, mockups and issued final items.

MODEL: A proposed or final design that may include original artwork, pieces of design elements such as borders, titles, vignettes, corporate seals, undertints and possibly portions of photographs. Before an engraved item was made, a design had to be decided on. This portion of the design process allowed for the artistic skills of the engraver or design department to be exhibited. Before the "digital age", banknote engravers and designers would cut up portions of other engraved items and re-apply them in a different form or design to come up with a unique new stamp, banknote or certificate. Often, all new engravings or "vignettes" of people or scenes would be engraved first to include in the new "work of art", and other times, portions of different completed items would be "borrowed" to use on a newly designed item. All models are rare and almost all of them are unique.

- 224 Max Svabinsky Signed Czech Essay Banknote Engraving.** Czechoslovakia, ND (ca.1930-50's). 1000 (Korun?), P-Unlisted, Portrait of Frantisek Palacky on right with ornate border and title engravings. Signed on bottom and numbered 98/500. Printed on white paper with circle and star watermarks. Signed on bottom. After Alfonse Mucha, Max Švabinský is surely one of the greatest Czech artists of the 20th century. He was born on September 17, 1873 in Kroměříž, a small town in South Moravia. There he attended a German school, and then enrolled in the Academy of Fine Arts in Prague. From 1910 on, he was a professor of arts at various art schools. His art work primarily consists of drawings in pencil, charcoal and pen & ink, but he also produced a great deal of commercial graphic or applied art and book illustrations. From this large body of work, his stamp designs in particular stand out. Švabinský is especially known for his numerous portraits of famous persons, many of which can be seen on his stamps. Of his more than 70 stamp designs, more than two thirds are portraits. A look at a list of subjects depicted on Švabinský's stamps gives you the feeling that you are viewing a "Who's Who" of Czechoslovak history, art and science. Rare signed artists proof. Territory of Colorado, March 20th, 1869, \$100, 10% Coupon Bond, gold ink on white paper, mining and mill scene in middle, Colorado arms at right, and portrait of Benjamin Franklin at bottom middle. Signed by Benjamin Franklin Fisher, (1834-1915), Civil War Soldier, Officer, Lawyer and war hero. He enlisted on June 18, 1861, the first summer of the Civil War, for three years in Company H, 32nd Pennsylvania Volunteers, being formed in Bucks County. (Two brothers also served, one as an assistant surgeon and the second as a Lieutenant who was killed at the Wilderness in 1864.) He then joined the Army of the Potomac for the Peninsula Campaign in the Signal Corp., he saw action at Lee's Mill, Williamsburg, Gaines's Mill, and Malvern Hill. In 1862, he was appointed Chief Signal Officer of the Army of the Potomac to produce intelligence reports from "stations of observation" and from the saddle. As the battle of Chancellorsville was concluding, and Union forces were under orders to make every effort to learn where enemy forces were going next. On June 17, 1863, while shadowing Confederate columns near Aldie, Virginia, Capt. Fisher was captured and sent to Libby Prison in Richmond. On February 9, 1864, 109 prisoners tunneled out of Libby Prison. Fisher led the second party of ten, which included his future brother-in-law, Lt. Causten. Fisher evaded searchers for eleven days, and found his way to Union lines at Williamsburg. Brevetted Lieutenant-colonel for gallant and meritorious services in 1864, Fisher was with the Army of the Potomac from the Rapidan to Petersburg. After the war, Fisher practiced law in Philadelphia and was active in many financial ventures including mining. Historic stock certificate signed by the last surviving escapee of notorious Libby Prison. . Est. \$120-240

Black on light yellow paper, Early Motorcycle in center, S/N 57, Mansons are known to be Indian clones, and they used Harley Davidson front ends. Manson was only around as a company for about 3 years. The Manson came with a Thor Engine and carburetor. The Manson is also equipped with chain drive, a yielding sprocket, grip control, and an Empire saddle. The box behind the seat, much like the Harley, is where the battery is stored, they are capable of up to 1,500 miles before having to be changed. Three regular batteries are used instead of special, more costly batteries. The gas tank holds a measly 4 quarts and the oil tank holds 2 pints. The Manson only held 4 quarts, but the motorcycle was capable of 75 miles per gallon. The bike could reach a top speed of 50 mph and costs between \$210 and \$225. Est. \$600-900

- 489 Shawnee Pottery Co., 1949 I/U Stock Certificate Delaware. 1 Share Capital Stock Issued Certificate, Black print on orange border and under tint, Allegorical figures at top flanking ancient piece of pottery, VF-XF condition, Quayle & Son. The Shawnee Pottery Company was a manufacturing company best known for producing Corn King pottery and the Pennsylvania Dutch lines of pottery. Both of these lines are considered to be highly collectible. In 1937 Shawnee Pottery began operations in the former American Encaustic facility in Zanesville, Ohio. Arrowheads found in the area, in conjunction with the heritage of local Shawnee Native Americans, inspired Louise Bauer, who was an in-house designer for this new company, to develop a logo with an arrowhead and profile of a Shawnee Indian Head. The Shawnee Pottery company operated from 1937 through 1961. After the new logo was finalized, the company then became known as Shawnee Pottery. Production under this new company name began in August 1937. The first products were primarily decorative items like figurines, cookie jars and vases which could be found in "five and dime" stores, such as F.W. Woolworth Company, S.S. Kresge and McCrory Stores. Shortly after production began in 1937, Sears Roebuck and Company asked the Shawnee Pottery Company to design a line of dinnerware known as Valencia, and a line of kitchenware exclusively for their stores. World War II had its effect on Shawnee Pottery. The Army Air Force had contracts with Shawnee Pottery company from 1942 to 1946 which provided Shawnee with 90% of its production. During this period, ceramic designer Robert Heckman joined the company. Est. \$120-240

This company can trace its history back to 1736 when Cornelius Board and Timothy Ward obtained 150 acres of the Sterling tract and built a bloomery and forge, turning out the first iron made at Sterling. Business at Sterling continued as usual during the 1830s and 1840s and little of consequence occurred until 1856 when the Townsends decided to sell the ironworks. ABNC. Murphy James Foster (1849-1921) was a Louisiana politician who served two terms as the 31st Governor of Louisiana from 1892 to 1900. Foster adopted the Louisiana Constitution of 1898, which effectively disfranchised the black majority, who comprised most of the Republicans, thus leading to Louisiana's becoming essentially a one-party (Democratic) state for several generations and excluding African Americans from the political system. Louisiana followed Mississippi (1890) in adopting a new constitution with devices to disfranchise blacks, chiefly by making voter registration more difficult. HISTORIC MORMON RELATED KIRTLAND, OHIO "ANTI-BANKING" OBSOLETE BANKNOTE RARITY. THIS EXAMPLE IS SIGNED BY WHITNEY AND NOT SMITH AND RARELY COMES TO AUCTION WITH THIS SIGNATURE COMBINATION.

836

- 836 Kirtland Safety Society Anti-Bank-ing Co. \$1 Jan. 4, 1837 OH-245 G2 Wolka 1422-01 Rust 12. Kirtland, OH., The "Anti-Banking" notes were the first issue of notes from this bank. The reason for the issue was the rejection of the bank's application for a charter from the state banking regulators in Columbus. With the notes already in hand and the bank ready to open, the bank's officials decided not to let such legal niceties restrain their activities, and simply opened for business issuing the newly renamed paper money with the help of tiny rubber stamps. Their handiwork can be seen immediately before and after the word "Bank" in the title at upper right. The titles Cashier and President were also carefully obliterated. By May of 1837 the bank was refusing to redeem its notes for specie, causing the issue to be severely discounted, and by June of 1837 Smith severed his association with the bank. The bank would fail in November 1837. Rare and desirable early Mormon related notes. Est. \$3500-5500

- 878 F.B.I. 1937 List of Ransom Bill Serial Numbers Used in the Famous Charles Ross Kidnapping Case. Washington, D.C., October 8, 1937. A 14-page document with a cover letter by John Edgar Hoover, FBI Director at the time, and bearing his facsimile signature. The letter states that the \$10 and \$20 currency notes described in the list were paid in a kidnapping case, and the recipient is requested to check against the list in case any may have been received by the recipient's institution (presumably, such letter was circulated among various financial institutions such as banks). Very Fine and unusual. One evening in late September 1937, Charles S. Ross, the wealthy president of a greeting card company, was driving towards Chicago when he was pulled over and kidnapped at gunpoint by a pair of criminals. The ensuing investigation quickly became one of the largest for the young FBI. It did not end well for Ross, who was murdered on October 10 (along with one of the criminals) after a fight broke out between the two kidnappers. It didn't end well for the mastermind of the plot, either. John Henry Seadlund (pictured above), who had a long history of run-ins with the law, crisscrossed the country after obtaining \$50,000 in ransom money but was ultimately tracked to Los Angeles using serial numbers from the bills. Agents posed as cashiers at a local racetrack where the ransom money had been used and arrested Ross on January 10, 1938 after he tried to place a bet with one of the bills. Seadlund confessed to the kidnapping and murders and was later executed. For almost four months each clue was looked at to identify and locate the individual responsible for the crime. The wide ramifications of the investigative activities of the FBI reached beyond the territorial limits of the continental United States. Thus was conducted one of the most widespread and intensive manhunts ever engaged in by the FBI, utilizing the most modern means of scientific crime detection. The pursuit of the FBI was maintained until Seadlund was located and apprehended as the result of a carefully planned trap set into operation by special agents under the direct personal supervision of J. Edgar Hoover, Director of the FBI, at the Santa Anita Race Track near Los Angeles, California on January 14, 1938. Est. \$325-450

CONDITIONS OF SALE

THE PLACING OF A BID SHALL CONSTITUTE ACCEPTANCE OF THESE CONDITIONS OF SALE

BIDDING

1. Unless announced otherwise by the auctioneer, all bids are per lot, as numbered in the printed Catalogue. Archives International Auctions, as agent for the consignor or vendor, shall regulate the bidding and shall determine the manner in which the bidding shall be conducted. Archives International Auctions reserves the right to withdraw any lot prior to sale (without liability to any potential purchaser or agent), to re-offer any withdrawn lot, to divide a lot or to group two or more lots belonging to the same consignor or vendor, and to refuse any bid believed not made in good faith. Estimates of sales prices contained in the printed Catalogue reflect the best judgment of Archives International Auctions and are not minimum or upset prices.
2. (a) Bids shall be made in the steps set forth in paragraph 12.
(b) The highest bid acknowledged by the auctioneer shall prevail. Should a dispute arise between bidders (including a dispute between a floor bidder and the auctioneer acting on behalf of a mail bidder, consignor or vendor), the auctioneer alone shall determine who the successful bidder is and whether to reoffer the lot in dispute. Should a dispute arise after the sale, the auctioneer's sale records shall be conclusive. On all lots sold, a commission of 20%* on the hammer price is payable by the buyer to the auctioneer (*See exceptions on next page for bids on internet).
3. (a) The auctioneer reserves the right to bid on behalf of clients (and consignors or vendors) but shall not be liable for errors and omissions in executing instructions to bid, however received, and whether such errors or omissions be those of the bidder or agent or those of the auctioneer.
(b) Lots may be offered subject to a reserve price. The auctioneer may implement such reserve price by bidding on behalf of the consignor vendor.
(c) It may also be assumed that all consignors have been advanced monies against the sale of their consigned material and Archives International Auctions therefore has a security interest in the consigned material over and above the normal auction commission.
(d) Purchases made by a consignor or vendor or his agent on his own lots shall be considered as a sale subject to commissions and sales tax as applicable.
(e) Agents are responsible for the payment of the purchase price for all purchases made on behalf of their clients, unless other arrangements with the auctioneer have been confirmed in writing prior to the auction.

PAYMENT FOR PURCHASES

4. Payment for lots, including those on which opinions are desired (Condition of Sale 8), shall be as follows:
 - (a) Floor Bidders. Payment of the purchase price, or such part thereof as Archives International Auctions shall require, shall be made by the purchaser in cash or bank or certified check or in such other manner as Archives International Auctions may determine. The name and address of the purchaser of each lot shall be given to the auctioneer immediately following the sale of such lot.
 - (b) Mail Bidders. A successful mail bidder will be notified of lots purchased. Before Archives International Auctions will send such lots, payment in full must be received by Archives International Auctions within three (3) business days of receipt of the aforesaid notification by the mail bidder. However, a purchaser known to Archives International Auctions at its option may have purchases delivered or forwarded for immediate payment (by a dollar draft on a U.S. bank in the case of overseas purchasers). Mailed delivery will be to the address on the bid sheet and proof by Archives International Auctions of receipt of a sending at the advised address shall constitute delivery. All charges for handling, delivery and insurance obtained by Archives International Auctions on behalf of the purchaser shall be added to the purchase price; a minimum charge of \$10.00 will be made. Risk of loss in transit shall be on the purchaser.
5. Title shall not pass to the purchaser until full payment has been received by Archives International Auctions as agents for the consignor or vendor.

6. (a) Purchasers agree to pay for lots as specified in Condition of Sale 4 (or as the same may be modified by Condition of Sale 8), and no credit is extended; a late payment charge of 2% per month or fraction thereof shall be added if payment is not made in accordance with the aforesaid conditions.
(b) In the event that a bidder shall fail to comply with these Conditions of Sale ("Non-Complying Bidder"), then, as to any lot with respect to which such failure to comply occurs, Archives International Auctions may, in its sole discretion, re-offer such lot during the same auction or at an auction at a later time, or by private treaty at such time as Archives International Auctions, in its sole discretion, deems appropriate and the Non-Complying Bidder shall be liable for the deficiency, if any, between the hammer price and the net proceeds of a sale to a subsequent purchaser, whether at auction or by private treaty, as well as for all costs and expenses of both sales, all other charges due thereunder, including commissions with respect to both sales, whether payable to Archives International Auctions or to a third party and all incidental damages. It shall be in Archives International Auctions' sole discretion to determine whether to re-offer the lot theretofore hammered-down to a Non-Complying Bidder at the same auction, or by private treaty in due course, or at a subsequent auction conducted by Archives International Auctions. In no event shall any surplus arising from the sale of a re-offered lot be payable to a Non-Complying Bidder.
(c) A defaulting purchaser shall be deemed to have granted Archives International Auctions a security interest in property in Archives International Auctions possession owned by such purchaser. Archives International Auctions shall have all of the rights afforded a purchase money secured party under the New York or New Jersey Uniform Commercial Code with respect to such property and may apply against such obligations all monies held or received by it for the account of, or due from Archives International Auctions to such purchaser. Archives International Auctions is authorized to file a Financing Statement in order to perfect its rights as a secured party.
(d) If Archives International Auctions takes any legal steps to secure payment of a delinquent account, the defaulting purchaser shall be liable for all legal and other expenses incurred by Archives International Auctions to secure such payment, including but not limited to a reasonable allowance for attorneys' fees. For purposes of this paragraph, the term legal steps shall be deemed to include any and all consultation by Archives International Auctions with its attorneys with respect to all matters arising out of a delinquent account.
(e) Unless otherwise acceptable to Archives International Auctions, payment is to be made only in the form of cash, bank check or certified check, credit card (Visa or MasterCard only) or a bank wire transfer.

EXHIBITION AND INSPECTION OF LOTS; QUALITY AND AUTHENTICITY

7. (a) On Premises Inspection only. Ample opportunity is given for on premises inspection prior to the auction date, and, upon written request and at Archives International Auctions discretion.
(b) Each lot is sold as genuine and correctly described, based on individual description as modified by any specific notations in this Catalogue.
(c) Quality. Any lot which a purchaser considers to be incorrectly described may be returned to Archives International Auctions within two weeks of its receipt by such purchaser ("Returning Purchaser"), provided, however, that the same is received by Archives International Auctions within four weeks of the date of the auction; however, Archives International Auctions may, in its discretion, refuse acceptance of such returned lot. If an opinion of a generally recognized authority is desired, the period of time within which a lot must be received by Archives International Auctions will be extended in accordance with Condition of Sale 8. In the event that a dispute cannot be resolved by reference to a generally recognized authority, and Archives International Auctions thereupon undertakes to re-offer the lot with a description identical to the description disputed, the Returning Purchaser shall be liable for the deficiency, if any, between the proceeds of the sale to the Returning Purchaser and the proceeds of a sale to a subsequent purchaser, as well as for all costs and expenses of the re-sale, including commission, and all incidental damages. Any lot, the description of which is disputed, must be returned in-

tact in the condition received by the purchaser. The following lots are not returnable except at the discretion of Archives International Auctions: (i) lots from purchasers who attended the exhibition of the lots; (ii) lots examined by postal viewers; (iii) lots on account of their appearance, if they are illustrated in this Catalogue; or (iv) lots described as having repairs, defects or faults for any reason.

- (d) Authenticity. Any lot which is declared otherwise than genuine by a generally recognized authority is returnable, provided such lot is received by Archives International Auctions within four weeks of the date of the auction. Proof that a generally recognized authority declines to express an opinion is normally grounds for the return of a lot.

- (e) Expenses incurred a purchaser in the submission and the return of a lot under Conditions of Sale 7 are not subject to refund.

SALES TAX

8. Unless presentation of satisfactory proof that it is exempted by law, a purchaser shall pay to Archives International Auctions New Jersey or New York State and local sales taxes, or any compensating use taxes of any other State claiming jurisdiction. A purchaser shall indemnify Archives International Auctions and hold it harmless of and from any claims of any jurisdiction for sales taxes relating to the purchase of articles at the auction, whenever the same may arise.

JURISDICTION AND VENUE OF ACTIONS
